

SEPTEMBER 28

WHS ROBOTICS

NIGHT

Watch Dogs Team #6900

Support your Winslow High School Robotics Team to promote STEM in our community. There will be activities and concessions for sale!

FIRST Tech Challenge teams are challenged to design, build, program, and operate robots to compete in a head-to-head challenge in an alliance format.

Students develop STEM skills and practice engineering principles, while realizing the value of hard work, innovation, and sharing ideas. Teams also must raise funds, design and market their team brand, and do community outreach for which they can win awards.

Participants have access to tens of millions of dollars in college scholarships. Each season concludes with Super-Regional Championships and an exciting [*FIRST* Championship](#).
